

ABOUT THE POWER...

The power structure maintains by convincing no power level to get to mid power and by convincing mid power level to get to power, the rest of no power level or failed to gain power are meant to be used because they are seen as not worth or not sophisticated enough, changing philosophy from the inside is illusory, the reason to get to mid power is to accept the process of how it is done, consciously or not

Often following abuse, no power level is tempted by revolution to seize power by force, this does not resolve the power issue. By force is by violent means and violence is not conscious, the selected few of the new group will be the new power group
IT SIMPLY REPLACES ONE POWER SYSTEM BY ANOTHER

No power level can use their free will NOT to go up to power, instead to distance from or leave power structure aside and be independent at least in mind, power and mid power will reduce hegemony and lose power because their power ONLY depends on the way they were looked at as superior
REQUIRES : FREE WILL, CREATIVITY, COLLABORATION, CONFIDENCE, NON VIOLENCE, NO FEAR
