

REASONS WHY PEOPLE STAY IN THE HERD MENTALITY AND DO NOT LOOK AT REALITY AS IT IS

EGO

Nobody wants to accept they are being scammed by beliefs or mass messages, it hurts ego too much
The acceptance would be so shattering the perception illusions, accepting is unthinkable
Ego has invested so much on following the herd to be accepted or shine, changing paradygm would be a huge loss
Ego finds justifications all the time to act as it does, never questions and self identifies to its actions

FEAR

If the majority says the same thing, the majority is right, questioning is risky and wrong
Rather live in fear being reassured by the repeated message than live free reassured by nothing
Fearing the risk of loss by accepting without seeing the gain of it (you don't know what you don't know yet)
Fearing the risk of loss by accepting without comparing it with the fear the risk of following the herd
Fear of the void of a change, whereas change is not void, it is just change, something else emerges
