

THE FUNCTION OF THE INTUITIVE PERSONALITY TYPES IN THE WORLD AFTER : WE CAN ALL REGAIN OUR POTENTIAL

1

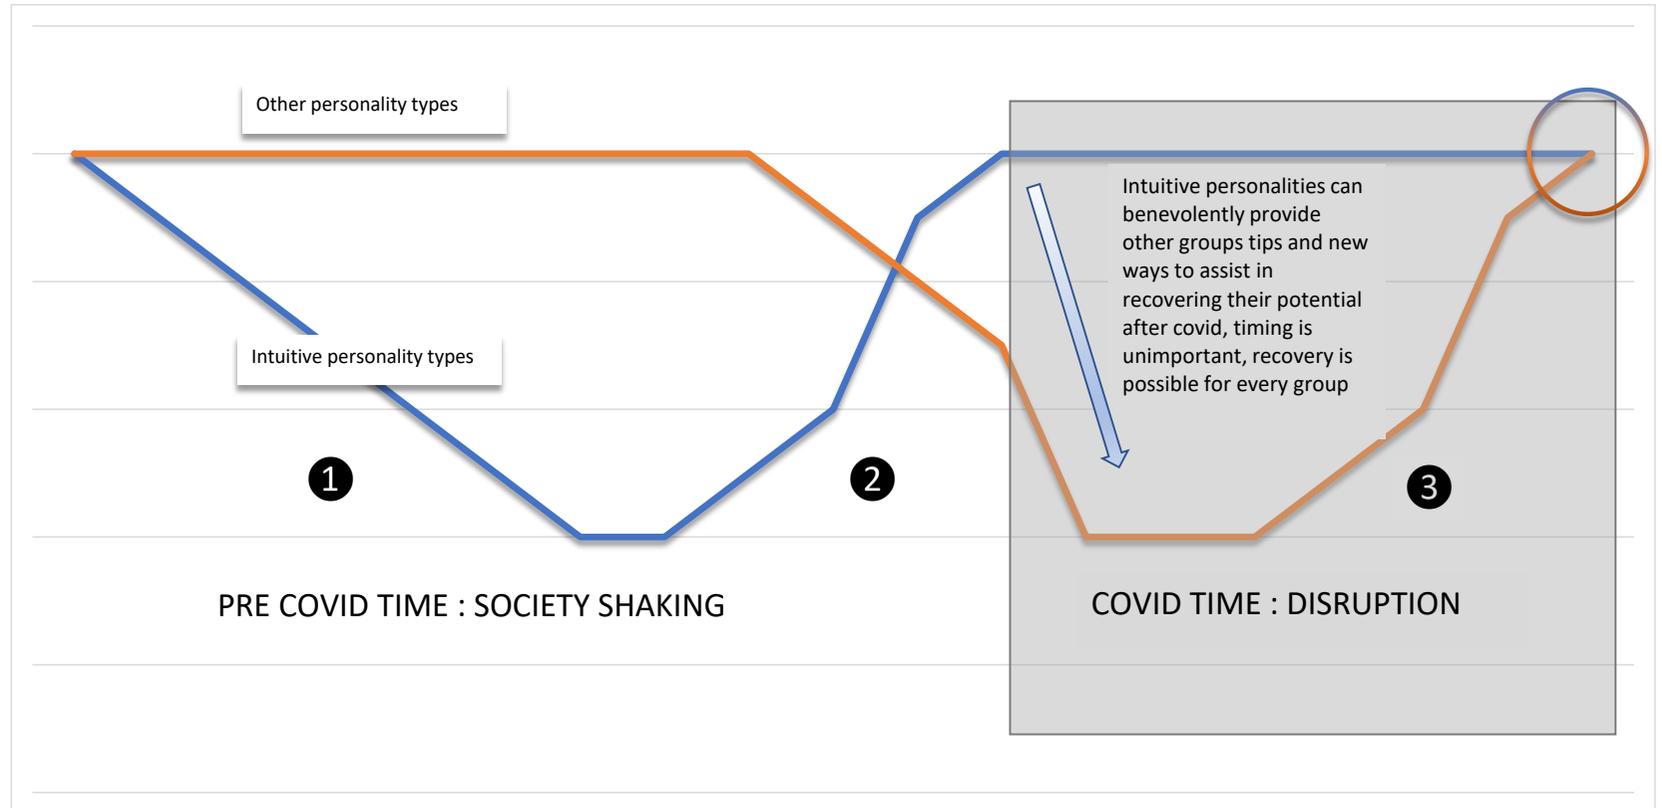

Intuitive personality types (blue) felt and lived the current change before others, while others remained high level spirit for longer

2

During their change, the intuitive have learned and understood what will be critical factors in the world after disruption (covid) and have prepared ideas, tools, new views to regain inner balance and experience joy FOR ALL because it is in human nature to do so

3

After covid, other groups are falling or realizing the depth will be severe, **they should know** they can count on the intuitive to provide the fruit of their experience graciously, **to help them help themselves**

Regaining our potential does not mean having the potential at the same place as before, but having the same level in perhaps more appropriate areas
